FIRESLIDE™
High Performance Doors

Standard Features

THE INDUSTRY'S FIRST FIRE-RATED WOOD SLIDING DOORS

By pioneering fire-rated wood sliding doors, AD Systems has blazed a new trail to help you achieve your vision. FireSlide™ surface-mounted, top-hung single-leaf doors offer the clean, modern aesthetic of sliding flush wood doors, while achieving a 45-minute UL 10B fire rating. Fire-rated doors now available with up to 100in² FireLite® NT fire-rated and impact-safety-rated clear ceramic glass.

FireSlide™ doors save space and defend against fire, while still providing the acoustic performance, hardware options and reliability you expect from our sliding door systems.

AD Systems FireSlide™ Standard Features:

• Achieves a 45-minute UL 10B fire rating

• Space-saving design saves significant space when compared to a swing door

• Acoustic seals on three sides to help enhance privacy and reduce indoor noise

• Heavy-duty, top-hung roller systems for smooth operation

• Design features self-closers, soft-close dampener and self-latching hardware

• Up to a 100in² FireLite NT 3/16" (5 mm) with fire-rated, impact-safety rated vision panel by Technical Glass Products (TGP)

Options

HARDWARE OPTIONS:

• Self-latching hardware with optional privacy or key lock functionality

• Electronic access control available

1-3/4 DOOR OPTIONS:

• Flush wood door with a range of laminate and natural veneer options

• Clear opening sizes up to 40-1/2" by 83-3/8"
